No. File No. 61-20/2012-Infra Sales/License Cancellation

Dated: 27-02-2013

To

The Chief General Manager Telecom  
TN Telecom Circle, Chennai.

**Subject: Exit from BSNL sites by M/s Videocon due to cancellation of UASL of M/s Videocon (Earlier -Datacom) pursuant to Hon'ble Supreme Court Judgement dated 02-02-2012- Outstanding dues in respect of leased out towers to M/s Videocon -Regarding.**

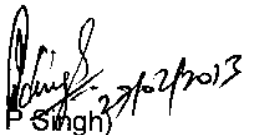

Ref: TR/1-204/VTL Corr/2012-13/42 dated 19.12.2012 (received through email dated 18.02.2013)

Kindly refer your above cited letter on the subject, addressed to M/s Videocon and a copy to this office whereby TN circle has written to M/s Videocon to settle outstanding dues of Rs. 1,39,94,551.00 within 3 days. Circle also requested this office for taking necessary action for en-cashing the BG, submitted by M/s Videocon in this office against MSA signed for sharing BSNL towers, if M/s Videocon fails to settle the outstanding dues.

From the information available on Google Doc, created for monitoring billing/payments for shared BSNL tower sites, it is noticed that total O/S dues against M/s Videocon in TN circle have been shown only Rs.41,99,000.00. It indicates that operator might have cleared some O/S dues in the mean time. Circle may therefore kindly reconcile the details.

In this regard, I have also been directed to request the circle for making further sincere efforts to recover balance outstanding dues from M/s Videocon in due time. Circle should also reconcile the O/S dues with the operator, if any disputed by the operator, and should forward the final status of outstanding to this office for taking further action with the operator. The circle should also give details of any discussions held with M/s Videocon with regard to recovery of O/S dues and also the other relevant details (bill wise details, IPF and energy charges, etc) for taking further necessary actions for recovery of O/S due from the operator. **TN circle is also requested to submit its reply on the above urgently.**

This is issued with the approval of PGM (IS).
